Vertex AI documentation

Vertex AI is a machine learning (ML) platform that lets you train and deploy ML models and AI applications. Vertex AI combines data engineering, data science, and ML engineering workflows, which lets teams collaborate using a common toolset.

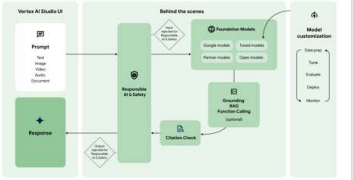
Learn more about Vertex AI (/vertex-ai/docs/start/introduction-unified-platform)

(https://cloud.google.com/vertex-ai/generative-ai/docs/models)

Gemini

(https://cloud.google.com/vertex-ai/generative-ai/docs/models)

Use Gemini, Google's multimodal generative AI model, to process images, videos, and text.

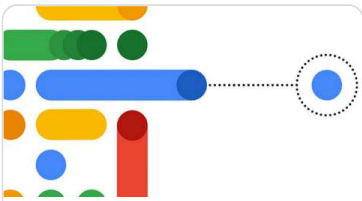


(https://cloud.google.com/vertex-ai/generative-ai/docs/learn/overview)

Generative AI

(https://cloud.google.com/vertex-ai/generative-ai/docs/learn/overview)

Access Google's generative AI models to test, tune, and deploy them for use in your AI-



(https://cloud.google.com/vertex-ai/docs/start/explore-models)

Model Garden

(https://cloud.google.com/vertex-ai/docs/start/explore-models)

Use Model Garden to discover, test, customize, and deploy Google proprietary and select open source software generative

powered applications.

AI models and large language models.
